VIEWS AND RECOMMENDATIONS OF SUPERVISING OFFICER*

(In fast stream cases, the recommendation must be from an officer not below the rank of Inspector)

Detective Inspector Irwin's comprehensive report defines the circumstances and the difficulties of this investigation.

The non co-operation of some witnesses and the Hamill Family's Solicitor, has resulted in all possible evidence not being made available.

The evidence of witnesses 'A' and 'B' is crucial, however, I refer you to the separate confidential report, submitted. I strongly support the recommendation that an early consultation be held with these witnesses.

The Medical and Post-mortem evidence, not yet to hand, will be salient in this case.

Considering all the evidence to hand, I agree with Detective Inspector Irwin's recommendation.
