MESSAGE FROM H

On 8th October 2002 I spoke to P42 at his home at

I was accompanied by P5. We spoke to P42 at his front door. This was in relation to that fact that he had been identified as the person who had put in an anonymous letter to the enquiry outlining everything he had witnessed during the incident involving Robert Hamill on 27 4 97. (Document No 468 refers). I introduced ourselves to P42 & asked him would it be ok to ask him some questions about the incident he had witnessed. He stated he had been electrocuted at work and was attending his doctor and wouldn't want to speak about it at present and it would be 6 weeks before we could get to speak to him. I informed him that we would be back in touch.
