

Please visit the Pendine surgery [at the back of the nursing home] and speak to staff regarding a young boy [redacted] from [redacted]

It appears that on the evening of the 19th December 2003, his mother Andrea [redacted] rang the surgery for a doctor to attend to her son. The surgery advised her to give the son Calpol.

She later rang back to say the boy was no better, and a lady doctor attended the home to examine the boy.

Can a SOE be obtained to cover the fact the mother called twice, and the boy was attended to by a doctor. The SOE can be from any member of staff able to refer to records.

There is no problem with the surgery, it is a SOE to cover why the mum did not attend Crown Court.

Once obtained can the SOE be faxed ASAP to
