

night.

What time would that have been at.

FORBES

Whenever I was heading home, what time was it, well say, say by the time you know the police pushed everybody right up you know to Mandeville Street it would have been just shortly after that at the bridge, about fifteen minutes after that, whatever time that was. Because I had no watch on so I don't actually know what time it was.

And did you notice anything wrong with him at that stage or was anything discussed.

FORBES

Aye his, his nose just. But there was no he, he was just by himself standing.

Did he mention the nose to you.

FORBES

Aye he, he just says, he says did you see me getting hit and I goes, no. And then some young girl you know said that he got hit but then she didn't say nothing more about it.
