Items attributed to Hamill

Item 1 (JMCA1) consisted of a black leather jacket. The collar, back of the right sleeve and back of the jacket were extensively bloodstained. Bloodstains were found on the right front and side. Blood from the right front and side and two areas of the back of the right sleeve were lifted for DNA typing.

Item 2 (JMCA2) consisted of a pair of blue denim jeans. They were bloodstained at the bottom of both legs, more heavily on the left. Light bloodstains were found on the seat. Blood from both legs and the seat was lifted from DNA typing.

Item 3 (JMCA3) consisted of a white shirt. Bloodstains were found on the back of the collar and over the right shoulder at the back.

Item 4 (JMCA4) consisted of a white T-shirt. It had been cut from the neck to the end of the right sleeve and from the hem to the end of the left sleeve, presumably in hospital. A spot of blood was found below the neck.

Items 5 and 6 (JMCA5 and JMCA6) formed a pair of shoes. A spot of blood was found on the right shoe. It was lifted for DNA typing.

Items attributed to

Item 13 (JMCD1) consisted of a pair of blue denim jeans. Light bloodstains were found on the front of the right leg.

Item 14 (JMCD2) consisted of a blue and white striped top. Light smears of blood were found on the front. Heavier bloodstains were found on the upper back and on the back of the right sleeve. One of these stains was lifted for DNA typing.

Items attributed to Bridgett

Item 7 (WAS2) consisted of a black skirt. It was examined for bloodstaining. None was found.

Item 8 (WAS4) consisted of a checked shirt. The button from the right cuff was missing and the seam under the right arm was torn. Bloodstaining was found on the right arm, near the shoulder. Two bloodstains were lifted for DNA typing.

Item 9 (WAS5) consisted of a pair of grey corduroy trousers. They were examined for blood. None was found.

Item 10 (WAS6) consisted of a pair of white cotton jeans. A bloodstain was found on the front of the left thigh. This was removed for DNA typing.

Items 11 and 12 (WAS7 and WAS8) formed a pair of shoes. They were examined for bloodstaining. None was found.
